

Custom AUTO ELECTRICS

GLOBAL TRACKING SYSTEMS

Black Knight's flagship devices are small, sleek, powerful and versatile. Once connected the tracker will update its position every 15 seconds, keeping your vehicle safe 24/7. Black Knight is a compact unit that is sealed and has no buttons.

During February 2018 receive 10% off any purchase of a Black Knight GPS Tracking system.

Unsurpassed Tracking Performance

- Realtime Tracking via smartphone, web or tablet
- Precision Accuracy
- 12 month travel history
- No data usage Limits
- Professional Fleet Management Tools
- Free Black Knight Smartphone App

Intelligent Alerts

- Geofencing
- Mains Power Disconnect
- Speed Limit
- Travel Distance/Travel Hours

Black Knight GPS Trackers come in two forms, the Z-3 and the X-3.

The Z-3 unit is the most common unit for all cars, boats, truck, caravans etc. Installation is a simple 2 wire hookup. The X-3 unit is made for fleets on late model cars, and simply plugs into the car's OBD port.
